

# RUSSIANS RETREAT BEFORE THE JAPS

## GENERAL ROUTOKOVSKY NUMBERED AMONG THE KILLED

LIAO YANG, August 29.—The Russian army has effected its retirement with transport and artillery on Liao Yang and is now in position awaiting the advancing Japanese. The progress of the latter has been rapid and determined, sparing of no sacrifice. In the attack on the Staolindzy position, one Japanese battalion lost all of its officers.

The retirement of the Russian transport of four corps yesterday evening across the plain while the artillery and troops in the rear held off the Japanese afforded a magnificent spectacle. All along the extended lines there was an incessant roar of batteries, the Russians working their guns with great coolness and not retiring until the transport was in safety. General Routokovsky was among the killed.

## FORTS EXCHANGE OWNERS.

## RUSSIANS CHEER IN DEFEAT. RETREAT ORDER SURPRISE.

Japs Unable to Occupy Positions Won By Fighting.

Rear Guard Fight and Killed Are Buried on the March.

Came to Russians When Army Expected to Advance.

CHIPOO, August 29, 9 p. m.—The steamer Chinhua, which has arrived here from Newchuan, reports that there was heavy firing at Port Arthur last night from 9 o'clock until 2.

A Chinese, who lives near Ribungshan, declares that he saw the Russians occupying this fort, from which previous report stated they had been driven. His able both reports were correct at the time they were current, as semi-official advices state that many positions about the fortress change hands frequently.

The fighting which began on the 27th, soon became general. While the Chinese were at rest August 28th, heavy firing was resumed. Two junks containing contraband of war were sunk by a Japanese torpedo boat ten miles off Loochiu peninsula.

It is said that fort No. 3 has changed hands four times and is now unoccupied. The Japanese filled the moat in front of this fort with sandbags.

### COOLIES DIG TRENCHES.

The Japanese are using thousand of Chinese coolies to dig trenches, build earthworks and drag cannon about.

The report that heavy fighting was resumed on August 27 agrees with a previous rumor from a credible source that the Japanese had planned to resume the general attack on that date.

The information received here during the past week would seem to confirm the belief that the great Japanese assault upon Port Arthur, which was begun August 20, was by no means a successful as anticipated.

### JAPS COULD NOT REACH POSITION.

Although the Japanese succeeded in pushing their lines forward, they were unable in any instance to occupy the important positions from which they drove the Russians. They succeeded only in weakening the Russian lines without making important advances in their own.

The report that the Japanese forces before Port Arthur have received heavy reinforcements via Dalmat has been confirmed. This bears out the statement from Chinese sources that heavy fighting commenced August 27.

The arrangement of the fortifications at Port Arthur is described by a Russian as very similar to a chessboard, upon which every fort, with respect to

HIAOTUN (Eleven miles east of Liao Yang). August 29.—The Russian army from Anping bivouacked upon the Liao Yang plain after fighting a rear guard action for nearly ten miles from Anping, bringing its wounded and burying its dead on the way. Six guns are reported to have been lost, but a number of Japanese were captured showing signs of great fatigue and hardships.

The enormous army, the most of which passed out on the Liao Valley at 5 o'clock this afternoon, seems to fill the entire plain from the foothills to the ancient walls.

The army was disposed in an orderly manner through the vast fields of Chinese corn, the soldiers cheering as they went into camp, while the baggage and transport trains caught in the muddy river attracted the cheering assistance of everybody.

Nothing, apparently, affects the heartiness of the men in the ranks. The line of wounded men, which reached the great gate this evening, passed silently through the streets, as deserted as the alleys of the catacombs. The litter-bearers, with their solitary lanterns, presented an impressive spectacle, awing the Chinese, who today for the first time realized the imminence of a battle.

This is considered to be proof that general Kuropatkin, finding his main positions menaced on the flank, and anticipating difficulties in withdrawing owing to the bad roads, which have suddenly been transformed into mud bogs by the rains, considered that a retreat was imperative. The retirement from the east front was greatly impeded by the conversion of the Liao River into a mountain torrent, and this probably also accounts for the failure of the Japanese to follow up the retiring Russians.

The Japanese column moving up the Liao River and threatening General Kuropatkin from the west is regarded as being extremely dangerous and General Kuroki's extreme right seems to be working around General Hirschelmann's position at Anping and to be moving toward Mukden.

### STRENGTH OF JAPS.

The strength of the enveloping Japanese armies may be inferred from the fact that General Kuroki alone, who is coming south, is reported to have 75,000 men. Whether General Kuropatkin intends to accept battle at Liao Yang may not be known positively for several days, but the belief, several times indicated in these dispatches, prevails here that he will withdraw northward, having found that he is not strong enough to cope with the Japanese and realizing that Liao Yang is made no longer tenable on account of the Japanese threats at his west rear.

### RETIREMENT DISAPPOINTING.

His retirement probably will cause keen disappointment as it was generally believed that he at last had sufficient reinforcements to accept a decisive engagement, and by the military critics his retreat is interpreted to mean a great prolongation of the war. The Tokio report that General Kuroki has succeeded in cutting the railroad south of Mukden is not confirmed by the telegraph department, where it is said that no reports have been received of an interruption of communication.

**EFFECT OF RAILROAD CUT.** Of course it is realized here that if the railroad north of Liao Yang is cut

LIAO YANG, August 29, 8 A. M.

—The Japanese artillery resumed the battle at 6 o'clock this morning, the point of pressure again being the Russian south front.

The Japanese infantry is now advancing to attack, the regiments deployed in open order.

## BRITISH SHIP OVERHAULS RUSSIAN CRUISER

Reticence Maintained Over an Act Which Cause Complications of Serious Consequences.

LONDON, August 29.—It is stated on good authority that the British cruiser sent to search for the Russian volunteer fleet cruisers Smolensky and St. Petersburg has overhauled at least one of these vessels. The utmost reticence is maintained at the Admiralty and at this hour no official confirmation of the statement has been given out.

## BIDS FOR SCENIC ROAD OPENED.

Bids for the construction of the Oakland Paving Company, \$305,000.

Dr. E. R. Tait, secretary of the Alameda County Association, filed a written request that the awarding of the contract be delayed a few days, but gave no reason for the request.

"We have determined to postpone action on the awarding of the contract for one week," announced Supervisor Mitchell. "There have been certain rumors coming to us," he continued, "and a number of people have been knocking to the proposition, so we have decided to investigate thoroughly."

Other bidders and the amount of their bids were as follows:

Pacific Construction Company \$197,972

E. B. & A. L. Stone \$221,500.

## RUSSIANS LOSE 3000 MEN IN ONE FIGHT

HARBIN, Manchuria, August 29.—The Russian losses in the fighting of August 25 and 26 west and south of Liao Yang were 3000 killed or wounded.

The great majority of the casualties were sustained at Anping.

The withdrawal of the Russians from their front at Anshanshan and from their eastern position was made simultaneously for strategic reasons.

## JAPS SUICIDE RATHER THAN SURRENDER

MUKDEN, August 29.—In the fighting of August 26, the One hundred and thirty-ninth Saraisk regiment with a battery, executed a particularly successful movement on the Japanese extreme right. The Russians, when perceived, got in the rear of the Japanese, whose columns of whom were moved down before they were able to extricate themselves. Eye witnesses agree in admiring the fanatical bravery of the Japanese. Many of the wounded committed suicide rather than fall into the hands of the Russians.

An additional detachment of 600 Russians wounded were sent northward Sunday.

William C. Organ, residing at 1416 San Pablo avenue, reports to the police that some one has estranged his wife, who, he says, is not mentally responsible, and has hidden her where neither he nor detectives can find her.

On August 26, the husband swore out a warrant for the arrest of his wife on a charge of insanity.

According to the husband, his wife was being detained so that she may be clandestinely an admirer. The person he suspects of killing his spouse is W. Hine, who resides at 2611 Shattuck av.

and his wife and two children.

### DETECTIVE'S STORY.

Detective Quigley, who was detailed on the case, which has a strange aspect, to the least, gives the following interview:

"I went to see Mr. Hine. He was very much averse to talking about the matter. From what I was able to gather from him, he is being paid by someone to keep Mrs. Organ in hiding. He refused to state who he was employed by but it is pretty certain that he knows where the missing woman is and also the motive that lies behind her disappearance."

"I have left home on several occasions as in the present case. I do not know of any reason why my husband should think that I am insane."

"As soon as I learned there was a warrant out for me I surrendered myself to the police and here I am."

TRENTON, N. J., August 29.—Richard Siegmars of New York to-day filed in the court of chancery a bill against the Electric Vehicle Company, Martin Maloney and other directors, to compel them to make good \$704,500, which was paid out by the company in dividend, during 1899 and 1900.

# RUSSIA SEEKING WAR GOODS

England Declares Czar Does Not Favor the Vessels.

LONDON, August 29.—The Russian government has given assurances to Great Britain that there is absolutely no truth in the charges that Russian warships are discriminating against British shipping in connection with their operations in connection with their operations in search for contraband. It is explicitly stated that Russia is not parading British ships, German ships or ships of any other nationality, but that she is solely pursuing contraband. This assurance has gone far to allay the irritation of the government here, which has been receiving official information intimating discrimination.

The foreign office has also been officially advised of the appointment of the joint commission representing the Russian and foreign ministries to be presided over by Professor De Marteau, professor of international law at the University of St. Petersburg, and which will sit forthwith to consider the distinction between conditional and absolute contraband of war.

The Associated Press is informed that the commission will discuss the advisability of modification of the Russian regulations governing contraband. The foreign office understands it is the purpose of Russia to conciliate the United States on this subject. Russia will make substantial concessions, which are expected to go far toward satisfying both countries. At the same time, Russia has made it clear to Great Britain that some latitude must be given her in the way of seizing goods conditionally contraband, provided hostile destination is suspected. Premier Falstaff in his last statement referred to the necessity of neutrals recognizing the rights possessed by belligerents. It is believed in Russian diplomatic circles that an agreement will shortly be reached.

## CARTING AWAY DEAD FROM PORT ARTHUR

CHINA, August 29, 7 p.m.—Severe fighting was resumed at Port Arthur on August 27, according to Chinese who left there in the evening of the 27th. Between August 25 and 26 there was some fighting but it was less severe than that on the 27th. One of the Chinese arrested and compelled to carry the dead from the battlefield of Pali Mountain, when the Japanese attempted to capture on August 27. Thirty carts were used to carry the dead, numbering four hundred, from the trenches and outskirts of the city.

A policeman told the Chinese that the efficient soldiers in the garrison at Port Arthur numbered over ten thousand.

## RUSSIANS LOSE GREAT GENERAL.

Confirmation of Death of Routokovsky on Sunday.

ST. PETERSBURG, Aug. 28.—An official despatch from Liao Yang dated yesterday to the general staff, reporting the continued Japanese advance on Sunday confirms the report that General Routokovsky was killed during the rear guard engagements and aids that Colonel Von Raaben also was killed.

The total of the Russian losses on Sunday is not known but 100 wounded have passed through the first aid stations. The losses of the Japanese were considerable.

Lieutenant General Routokovsky for a number of years had been attached to the staff of the Governor General of the Caucasus as chief of the En-gancer Corps. He belonged to a prominent family.

Cel. Von Raaben was a well known character in St. Petersburg. He was a man of great wealth and was very popular socially.

# ARABIA REACHES SHANGHAI.

Aftermath of Seizure and Fate of Men on Board.

SHANGHAI, August 29.—Evening—The German steamer Arabia, belonging to the Hamburg-American line, has arrived here from Vladivostok. This is the vessel that was captured by the Russian Vladivostok squadron in July. A prize crew, was put on board here and she was taken to Vladivostok where she arrived July 28. All the white men among her crew were well treated by the Russians.

BEFORE PRIZE COURT.

She was tried before a prize court, which condemned twenty thousand barrels of flour and 71 railroad car bodies. The remainder of the cargo and the vessel were released.

The British steamer Calchas, from Tacoma for Japanese ports, which was arrested by the Vladivostok squadron, thirty miles north of Tokio Bay while the Russian warships were cruising off the Pacific coast of Japan last July, was also taken into Vladivostok. The flour and lumber on board the Calchas were confiscated by the Russians without awaiting the action of the prize court. The Calchas is now at Vladivostok with the balance of her cargo on board.

The Arabia brought ninety bags of mail for Japan which were taken from the Calchas. With the exception of two small Japanese sailing vessels, the only other prize at Vladivostok is the British steamer Allenton.

OFFICERS OF THEA.

The Arabia brought also to Shanghai the captain and crew of the German steamer Thea which was sunk by the Vladivostok squadron when loaded with fish manure. The Russians made no attempt to take the Thea into port.

OFFICERS AND TROOPS.

The Arabia reports that there are few signs of war at Vladivostok. Two trains leave the port daily. Viceroy Alexieff is there, and the town is full of officers and troops. Meat and flour are plentiful but sugar and cigars are scarce. The Russian cruisers Gromobol and Rossia arrived from their engagement August 14, with the Japanese fleet under Vice-Admiral Kamimura in a terribly damaged condition. It is remarkable that they were able to make port at all. The repairs to the Russian cruiser Bogatyr, which was damaged by running aground near Vladivostok, are nearly completed.

HISTORY OF SEIZURE.

The steamship Arabia sailed from Portland, Oregon, on the night of July 1 carrying about five thousand tons of freight, valued at \$197,000. The cargo included thirty-three thousand, seven hundred and twenty-six barrels of flour and a large quantity of material used in the construction of railroad cars, consigned to Kobe and Nagasaki.

## INDIANA WEEK AT WORLD'S FAIR.

ST. LOUIS, August 29.—Great crowds of Indiana through the World's Fair grounds to-day and launched the celebration of Indiana week.

On Thursday Governor Durbin and Senator Fairbanks and Beveridge will deliver addresses.

WIFE HAS NO CASE.

The charge of disturbing the peace preferred against H. C. Falster by his wife, Mrs. E. C. Falster, was dismissed this morning in the police court. Mrs. Falster in the opinion of Prosecuting Attorney Leach did not have a case. The wife has suit for divorce now pending in the Superior Court.

DISCHARGES BERNARDO.

Joe Bernardo, the saloon keeper accused of disturbing the peace of P. Pedro, was found not guilty this morning by Acting Police Judge Geary. The man had a dispute about property lines adjoining their dwellings.

# PAID NOTHING FOR THEA.

Story of Discrimination, Favor of Germany Denied.

BERLIN, August 29.—The complaint of the delegation from the London Chamber of Commerce to Premier Lafora Friday that Russia paid for the German vessels seized, while refusing satisfaction to the British, is denied by Herr Diederichsen of Kiel, the owner of the German steamer Thea, which was sunk by the Vladivostok squadron in July, who telegraphs to the Associated Press that such is not the case. There has been no satisfaction for the Thea.

# BATTLED UP LIKE BAZAIN.

German View of Plight of Russians at Liao Yang.

BERLIN, Aug. 29.—German military men are discussing the situation of General Kuropatkin with the keenest interest. They have information that the defenses of Liao Yang are of extraordinary strength. The fortifying of the town was intrusted to General Melishko, who enjoys here the reputation of being a master of military engineering.

The German critics think Liao Yang's defenses about equalize the difference in numbers between the Russians—estimated at 180,000—and the Japanese, numbering 240,000. The danger of General Kuropatkin's situation is recognized as being bottled up like Field Marshal Bazain, who surrendered Metz to the German forces in 1870. It is doubted by the experts if General Kuropatkin will be able to prevent the complete encircling of Liao Yang which would mean probably the eventual loss of his entire army.

The Japanese delay of action is believed to have been due to the necessity of bringing up siege guns with which to break the Russian fortifications.

## NOTHING LEFT BUT SURRENDER

How a Packer Sizes Up Strike Situation in Chicago.

CHICAGO, August 29.—With the strike relief funds depleted and crowds of hungry men vainly scrambling for food at the commissary stores, it taxed the labor leaders to find a way to prevent a stampede from the union ranks today. "Wait until tomorrow and we shall present to the packers a proposal which they cannot decline to accept," they told the men.

"There is nothing left for the men but unconditional surrender," said a packer. "The leaders should not hesitate in calling the strike off so that the men who are anxious can find work. The only terms of surrender we shall consider will be the return of the men as individuals."

The packing house teamsters will meet tonight to discuss the advisability of declaring the strike off as far as they are concerned.

## GOOD WISHES FROM FAIRBANKS

United States Senator Charles W. Fairbanks, of Indianapolis, Ind., who is to be installed next March as Vice-President of this Republic has forwarded a letter of approval to the Union League Club of Alameda county.

The missive, which has just arrived, reads as follows:

"To Mr. F. R. Porter, Oakland, Calif." Indianapolis, August 24, 1904.

"My Dear Sir: Your kind note of the 2d inst., concerning the formation of the Union League Club of Alameda county on the 10th, has just come to my attention.

"I very much regret that I was not aware of your invitation in time, for I would gladly have wired you club a dispatch of congratulations and good wishes.

# PARKER WORKS ON LETTER.

The Democratic Nominee Considers Questions of Campaign.

ESOPUS, N. Y., August 29.—Minister interrupted work on his letter accepting the Democratic nomination for the Presidency and elaborating his views upon the questions at issue in the campaign was Judge Parker's program today.

William F. Sheehan returned to New York on the early train after spending Sunday at his summer home here. During his stay he has had, in all, several hours' conference with the candidate, during which the political situation, especially in the East, has been discussed.

CHICAGO, August 29.—It is reported from a reliable source that Lieutenant-General Stoessel, commander of the Russian military forces at Port Arthur, has telegraphed to the Emperor thanking him for the recent message of encouragement sent to the garrison of Port Arthur, saying that the defenders of the fortress are ready and willing to lay down their lives; that the garrison has already suffered severely, and intimating that it is hardly possible to hold out for more than a month or six weeks.

FOUR MORE REGIMENTS.

Four more regiments will be raised in the Caucasus. An official announcement to this effect is expected tomorrow.

The first contingent of the first army corps has arrived at Harbin. This corps was destined for Vladivostok, but upon the urgent request of General Kuropatkin it will be diverted to Mukden.

# STEWART GOES TO JAIL KUROPATKIN TELLS WHY HE FLED FROM JAPANESE INSTEAD OF TO PRISON

Plea of Attorney Frick in Behalf of Kennedy's Assailant Upheld by Judge Hall.

Taking the view that W. C. Stewart, convicted of assault with a deadly weapon for having shot W. S. Kennedy, had not premeditated the offense and that he was the victim of having had a pistol in his pocket at the time of his fight, Judge Hall this morning sentenced Stewart to a term of eighteen months in the County Jail instead of sending him to Folsom Prison.

#### STEWART'S REPUTATION.

A plea for the mercy of the court was made by Attorney A. L. Frick in behalf of Stewart this morning, who stated to the court that, from the evidence in the case, Stewart had always borne a good reputation up to the time of his crime. He pointed out that Stewart had been employed in a cigar store and as he had the handling of considerable money had been given a pistol and then going on a trip East had still kept the weapon. His meeting with Kennedy and their subsequent quarrel and the firing of the shots were a succession of circumstances, unforeseen at the finale, the outcome of passion and the unfortunate fact of having had the pistol in his pocket. It was also shown that Kennedy had stated that he did not care to prosecute

Stewart, and in fact was an unwilling witness from the time of the trouble. In conclusion, Judge Frick said that he believed that justice would be entirely satisfied with a sentence in the County Jail.

#### JUDGE'S VIEW.

I nealy, Judge Hall said: "It was my intention to sentence the defendant to the State prison. I have watched him throughout the course of this trial and his demeanor and bearing are not of the character that stamps him as a member of the criminal class. I believe that his having the pistol was the cause of the commission of the deed that has got him into this trouble. He was attacked, and having the pistol, drew it and fired. But it was shown that he was not justified in doing this. The jury did perfectly right in finding him guilty of assault with a deadly weapon."

Bidding Stewart to stand up, Judge Hall said: "It is the judgment of this court that you be sentenced to serve a sentence of eighteen months in the County Jail."

For good behavior prisoners are allowed five days off every month they spend in jail and this will cut Stewart's punishment down three months, making his imprisonment fifteen months all told.

## COUNCIL TO PASS BOND ORDINANCE TOMORROW

The City Council will meet tomorrow night to finally pass the ordinance calling for the issuance of \$2,492,000 worth of bonds for improvements.

This is the final step in the matter as far as the Council is officially concerned.

There will, hereafter, be nothing further to be done save the voting for the bonds on September 27 by the people.

**CAMPAIGN FOR BONDS.**

Immediately after Mayor Olney affixes his signature to the ordinance

ferred to the committee of the whole.

**BOARD OF ELECTORS.**

A communication from the City Council said that the same number of bonds will be instituted.

The various improvement clubs throughout the city have taken up the bond matter with enthusiasm and have agreed to aid the Council in every way by assisting in the propaganda for the enlightenment of the people.

The Board of Supervisors has loaned the city the use of sufficient number of booths and ballot boxes for use on the day of the bond election.

The work of improving Telegraph avenue is rapidly nearing completion, and it is expected that it will be finished by the last of September. The Telegraph avenue extension of the Thirty-sixth street sewer is practically completed and only three blocks of the work on Thirty-sixth street remain to be finished. The entire sewer will be finished before winter. The work of improving and repairing the streets of the city is well pressed and there is now in progress street work that will aggregate more than a million of dollars. Among the works are the repairing of Telegraph avenue, the construction of a new bridge extending from the end of Bonneville Terrace across Adams Point, to the head of the northeast arm of Lake Merritt. An agreement was entered into with the West Side Street and Park Railroad Company that the company shall construct the terminus at the upper end of the boulevard. The property owners along Twenty-first street have decided to repave that portion of the boulevard from Railroad Avenue to Twenty-second street, and the Oakland Transit Company has been requested to remove one of the tracks on the street, making the Twenty-third avenue a single track system. This will allow considerably more room for teams.

The aling in of Commerce street, from Twelfth to Twenty-first street, has been completed, and the work of macadamizing will be completed immediately. The E. & A. Stone Company, which has the contract for the work, has a large force of men employed and will rush the work as fast as possible.

**EVERYTHING NOW COMPLETE**

The Season's Latest and Best Ready for the Ladies.

"A miss is as good as a mile"—the old adage runs, and a month is worth the season—in certain lines of business.

The house that can show exclusive styles in wearing apparel before the season is open has won a distinctive victory.

People vie with one another to secure what dame fashion has decreed as the proper thing to put on.

It is certainly a treat to saunter through the spacious show room of the Toggerie Cloak and Suit House in the Bond Block and see the handsome garments shown there. Everything is in strict accordance with the season's program.

The factory which this house represents is the largest on the Pacific coast and has over 300 employees working overtime to put out the latest styles in a la mode.

The reputation of every factory manufacturing goods catering to the public that is based upon the ability of cutters and designers, must be in direct communication with fashion centers abroad. Such is the case in this instance.

Nothing is left undone in the anticipation of an extensive fall business. Latest cut cloaks, suits and skirts are shown with proper millinery accessories.

Mrs. J. A. Hayes, the manager of the Toggerie is an expert in the manufacturing of cloaks, suits and management of tail stores, disposing of factory products.

For twelve years he has been connected with the largest factory and store producing and selling ladies' outer garments on the coast. Every detail of the business comes with his close attention, and no faulty work could escape his notice. Mr. Hayes is a member of many of the leading fraternal organizations and has a large circle of friends.

The appointments of the Toggerie are elegant and every convenience afforded purchasers, prominent among which is the abundance of light in the large sales department.

Another important department has been added this week that of a complete line of furs. This is a new departure for Oakland. Ladies have been accustomed to purchasing these commodities in San Francisco but are able to get latest styles here now.

ST. PETERSBURG, August 29.—5:50 p.m.—The operations around Liao Yang have undergone a complete change. Owing to the delay in the construction of the roads, the Japanese seized the opportunity to attack the slow-moving corps. Severe fighting occurred August 27 and 28, in which the Russians lost another thousand men and they now probably will have to accept a general engagement. General Kuropatkin himself describes the latest phase of the hostilities in a long dispatch to the emperor from a point on the railroad a few miles south of Liao Yang where the whole army was assembled and awaiting battle.

#### KUROPATKIN'S STORY.

The telegram, which was filed early this morning, says:

"The Japanese began at dawn, August 27 two movements designed to cut off the first and fourth corps. The first, stationed at Anshanshan, half way between Halchong and Liao Yang, experienced the most serious difficulty owing to the bad roads. The cavalry, under General Oku, tried to flank the troops of Generals Ivanoff and Herschel-

mann, drove a wedge between the second and fourth corps, which were stationed west of Lianianshan, a strong defensive position in the hills, 24 miles southeast of Liao Yang.

#### IMPEDED BY ARTILLERY.

The Russians, greatly impeded by their artillery and commissarist, fought a series of rearguard actions in order to cover the retreat of their impeded to Liao Yang in which they were successful.

The first corps, which flared at the battle of the Yalu and in the fighting at Motien Pass, again sustained the brunt of the fighting and suffered the majority of the losses, including General Routkovsky and Col. Von Raaben.

The first, second and fourth corps, combined under the command of General Zaroboff and the Thirteenth, Seventeenth and Third corps, under General Ivanoff, forming the eastern contingent, succeeded in effecting a concentration at Liao Yang, without further loss. "The whole six corps of which two are European troops, have now formed a semi-circle within a radius of six or eight miles of Liao Yang."

General Kuropatkin has not far short of 170,000.

## MUCH IMPROVING BARRIE PAYS NO ALIMONY BEING DONE.

WORK ON ADAMS BOULEVARD TO BE BEGUN IN NEAR FUTURE.

WIFE HAS HIM CITED BEFORE COURT ON CHARGE OF CONTEMPT.

The work of improving Telegraph avenue is rapidly nearing completion, and it is expected that it will be finished by the last of September. The Telegraph avenue extension of the Thirty-sixth street sewer is practically completed and only three blocks of the work on Thirty-sixth street remain to be finished. The entire sewer will be finished before winter. The work of improving and repairing the streets of the city is well pressed and there is now in progress street work that will aggregate more than a million of dollars. Among the works are the repairing of Telegraph avenue, the construction of a new bridge extending from the end of Bonneville Terrace across Adams Point, to the head of the northeast arm of Lake Merritt. An agreement was entered into with the West Side Street and Park Railroad Company that the company shall construct the terminus at the upper end of the boulevard.

Mrs. Barrie has cited to appear before Judge Ellsworth next Friday and show cause why he should not be punished for contempt of court in not having paid Mrs. Barrie \$50 last July and \$2 each succeeding month as alimony pending the trial of his suit for divorce against Edna A. Barrie on the ground of desecration.

Mrs. Barrie appeared before Judge Ellsworth this morning and stated that although the court had made an order granting her alimony he had received none. And the court made the order forthwith citing Barrie to appear and explain.

This action is the outcome of sensational charges made against Barrie by his nephew Frederick Ward by Mrs. Barrie of having attempted to railroad her to an asylum at Livermore. After she had been confined for several months she gained her liberty in the early part of 1903 through habeas corpus and immediately sought for divorce against Barrie charging him with cruelty. During the trial Mrs. Barrie testified that the life of her thirteen-year-old daughter had been spoiled by the father and his nephew.

At the conclusion of the trial Judge Ogden refused to grant her a divorce and stated that the evidence went to show that she was crazy. She, however, had left her husband and after the required year was up he began a suit charging desertion. She made an application for alimony which was granted but which she states so far she has been unable to collect.

The aling in of Commerce street, from Twelfth to Twenty-first street, has been completed, and the work of macadamizing will be completed immediately. The E. & A. Stone Company, which has the contract for the work, has a large force of men employed and will rush the work as fast as possible.

## REV. J. H. STONE IS CALLED.

PIONEER MINISTER ANSWERS FINAL SUMMONS THIS MORNING.

Rev. Jacob H. Strong, after several weeks' illness, died last night in one of the local hospitals at the age of 76 years. He was a native of Connecticut.

Mr. Strong was one of the oldest Congregational ministers on the Pacific Coast. His first pastorate was in 1859 at Sausalito, where he remained for 16 years.

Afterwards he was pastor of several other churches throughout California. He resided nine years in Clayton, Contra Costa County. Latterly he had been leading a retired life owing to advancing age.

He leaves wife, Mrs. Fanny Strong, and four children, Fred A., Theodore P. Strong, Mrs. A. S. Watson and Mrs. May Couper.

The funeral will be held Wednesday from the late residence of the deceased, 2635 Hilegas avenue, Berkeley.

# RELIEF IN DIVORCE CASES

## TWO ARE KILLED IN ELEVATOR

Judge Hunt Hands Down Two Others Are Horribly Burned by Muriatic Acid.

**SAN FRANCISCO**, August 27.—In the case of Amelia F. Grannis vs. Jas. G. Grannis, Superior Judge Hunt has handed down a decision affecting many people in this State.

The question involved is whether absolute decrees of divorce granted after the passage of last year's stereotyped act and while there is still some doubt as to the constitutionality of the law are void, voidable and if voidable, good or bad.

Judge Hunt holds that in this case the decree must stand, while the decree is in itself erroneous. In the first place it was absolute, it was right in its intention and provisions and is not voidable because the appeal is not prosecuted within six months after entry of final judgment.

**FIGHTERS TAKE PORT ARTHUR HAS A REST.**

**POR T ARTHUR HARDER TO CAPTURE THAN WAS EXPECTED.**

**SAIGON**, French Indo-China, August 27.—The Russian cruiser Diana, which arrived here August 20 with a shell below her water line, received in the naval battle off Port Arthur August 19, has not received instructions from the Government at St. Petersburg to disarm or repair her damages, which are slight.

Another Japanese shell killed an officer of the Diana and three men and wounded 23 others.

The cruiser tried to reach Shanghai but encountered some Japanese torpedo boats.

The latter discharged nine torpedoes without effect at the Diana.

The officers of the cruiser declare that General Stoessel will never surrender Port Arthur.

When the Diana left the harbor General Stoessel had 40,000 men.

**WOMAN WINS CHAMPIONSHIP.**

**CHICAGO**, August 27.—Miss Frances Everett, of the Exmoor Country Club, today won the women's Western golf championship on the Glenview Golf Club grounds by defeating Miss J. Anna Carpenter of Westward Ho, 1 up on the home green. The contest was close and each player performed like a veteran golfer, weather prevailing. Miss Everett's winning game was the best ever exhibited by a woman over the Western championship course, the score, Miss Frances Everett, Exmoor—Out 49, In 49—Total 98.

Miss J. Anna Carpenter, Westward Ho, Out 49—In 49—Total 98.

The championship tourney was concluded with a mixed foursome, with twenty starters, the new champion playing with Western Champion H. C. Clark.

Mayo, who was elected as a Wells delegate to the convention but who voted for John C. Cutler, had a fist fight on Main street today in which both were badly bruised.

# HE FELL DOWN A SHAFT

Young Man Meets a Horrible Death in a Mine.

**STOCKTON**, Cal., Aug. 27.—William Mobley, formerly of this city and a son of Rev. D. A. Mobley, pastor of the Presbyterian Church at Fowler, met a horrible death in the Gwyn Mine at Coloma above Angels Camp at 6:30 this morning.

On the elevator with the men when it fell were eight carbons of muriatic acid each weighing 135 pounds.

These broke open and all four men were badly burned.

The dead man are Thomas Prince and George Bennett, and the injured are Louis Hoffman and R. Francisco.

The four men were mixed up in a mass of broken glass and the flood of acid and their screams as the fiery stuff burned their flesh were heartrending.

# CLAIM THEY STOPPED FUNERALS.

**SAN FRANCISCO**, Aug. 27.—A suit for a perpetual injunction very similar to that of E. G. Pierce against the Stablemen's Union was filed this morning by the Horse Valley Stables, a corporation, against the Hackmen's Union, Local No. 226, et al., and the Stablemen's Union, Local No. 8, 500, and its officers. The complaint de-claims that the defendants have been guilty of many illegal acts, among which were the institution of pickets, the declaration of a boycott against the customers of the plaintiff and even that they have interfered with the plaintiff's vehicles at various funerals and have demanded on such occasions the persons in attendance get out of the carriages owned by the plaintiff and ride in other vehicles. A conspiracy is alleged to exist between the two unions, and so they are joined as defendants in the suit.

# WAS MADDUX MURDERED?

Did William C. Maddaux, the Oak-land painter who has been missing since July 15th, meet death at the hands of an unknown person, or was he accidentally drowned in a slough near Los Angeles in sight of the unknown companion whose anonymous letter to the Sacramento police is now made public.

Maddaux left his home, 1256 Alice street, this city, on July 15, ostensibly on a business trip to Sacramento. Nothing was heard of him thereafter on his wife, Mrs. Gertrude Howe Maddaux.

An unidentified body of a man was found floating in a slough near Los Angeles. It was removed to the coroner's morgue. Not a stitch of clothing belonging to the dead man was found and the following day the body was buried in Potter's Field.

On the 18th, Maddaux went up to Stockton and applied to the coroner to examine the unidentified body. This was done yesterday and although the remains were in an advanced stage of decomposition Mrs. Maddaux positively identified them as those of her husband.

# DAMAGE DONE BY OIL FIRE.

**CROWLEY**, La., August 27.—Two of the four burning oil wells have been smothered by steam and water, and the two remaining wells will probably be controlled today. The damage is estimated at \$100,000.

# TAKE FORTRESS BY SLOW SIEGE.

**PARIS**, August 27.—The rumored fall of Port Arthur is not confirmed in any quarter here. On the contrary it is said in government circles that the information received shows that the Japanese did not succeed from the recent efforts that the taking of the fortress by storm will probably be impossible and that the staff advises the adoption of a new plan, namely, its slow reduction by siege.

**NEW YORK**, August 27.—The Right Honorable and Most Venerable Thomas Davison, D. D., Lord Archbishop of Canterbury and primate of all England, arrived here today on the steamer Celadon accompanied by his wife and Vicar of Windsor.

# ARTFUL RUSSIANS WIN THE BIG RACE

**SHEEPSHEAD BAY**, August 27.—Fourth race, the futurity, six furlongs: Artful first, four lg st, easy; Tradition second, head Sysomby third. Time, 1:14:4-5.

The betting on Artful was 3 to 2 and 2 to 5.

**SHEEPSHEAD BAY**, Aug. 27.—H. B. Duryea's Artful won the futurity here this afternoon, ridden out defeating the best herd of 10-year-olds that have ever partied at the famous rich stake.

Tradition, from the stable of Harry P. Page, was second, and the hot favorite Sysomby, a poor third. As Artful returned to the scales after pulling up his horse, Artful was greeted by a tremendous cheer, while the band played "The Wedding of the Green."

After a few moments' delay they were sent away to a fair start and Sysomby, who was on the inside of the start, went to the front in the lifting of the barrier, and continued to show the way to the main track with Artful and Tradition close up. When strengthened out for the run to the wire Heidebrand slowly, but surely sent Artful into the lead, and Sysomby under the wire a winner and dousing cheers.

At the quarter mark Artful led Artful by a length. Tradition was third. At the half Artful led by a length. Tradition was fourth. At the three-quarter mark Artful led Artful by a length. Tradition was fifth. At the finish Artful was second and Sysomby third.

At the end of twenty-four guns on Tsushima Hill, Artful and Sysomby pulled out of action by the Russian batteries and the Russian cavalry dispersed the Japanese.

At 3 p.m. the Japanese made a hot attack against Kofun's and considerable Japanese forces were discovered in the rear of the hill.

At 4 p.m. the Japanese were repulsed and the Japanese troops taking the offensive drove the Japanese back towards the Nankai Valley. The Russian losses there were about 300.

In an effort to dislodge the Japanese from the front on the Russian right, the troops refused from their advanced position, thus hindering the action of the army.

The engagement at that point was serious and became a hand-to-hand fight.

The Russians, according to this report, lost about a thousand killed and wounded.

Since noon heavy rains had been falling and the streams were again rising.

# RUSSIANS CLAIM A VICTORY

**ST. PETERSBURG**, August 27.—The general staff has received a dispatch from General Sakhairov giving a lengthy detailed account of the fighting of August 26. He says that on the day the Japanese took the offensive along the whole front of the Manchurian army.

Early hour the Japanese occupied the village of Henchuan, repulsing the Russian advance guard.

The attack in that sector ceased before dawn the Japanese were concentrated

against the Russian advanced detachments of the Amurian position.

The Japanese force consisted of a division, half, with artillery.

The Russian advance guard on the main position.

The southern front were 150 men.

## OAKLAND TRIBUNE

Tribune Publishing Company. William E. Dargie, President

## Quit Humbugging the Issue.

In our opinion a good deal more stress is being laid on the age of the Democratic candidate for Vice-President than the situation warrants. Mr. Davis is not running for President. And surely there are better reasons for urging the election of Theodore Roosevelt for President over Alton B. Parker than the fact that Judge Parker's associate on the ticket is 81 years of age. Of course it was hazardous to nominate so old a man for so important a position, but the reasons that induced the nomination are more to be condemned than the nomination itself. It must be admitted, however, that Mr. Davis is a person of remarkable physical and mental vigor for a man of his advanced years, and the examples supplied by Gladstone, Metternich, Gortchakoff and Pio Nono prove that men past four score are sometimes found who are equal to the highest demand of statesmanship.

But the point we desire to make is that in this campaign the Republicans are not asking the endorsement of President Roosevelt and his administration because the Democrats have nominated a very old man for Vice President. The opponent of President Roosevelt is Alton B. Parker, not Henry G. Davis, and the arguments that press for his election are quite independent of the age of Mr. Davis. The issue before the people is the policy of the Republican party and the executive record of its candidate, not the age of the minor candidate on the other side.

The history, character and principles of the Democratic party are far more to be reprehended and condemned than the nomination of Henry G. Davis. The record and achievements of the Republican party are distinct claims to confidence and approval which are not reinforced by expatiating on the age and prospective infirmities of the Democratic nominee for Vice President.

In talking so much about the advanced years of Henry G. Davis there is danger of losing sight of the really important questions up for consideration. It is reducing campaign discussion to the plane of puerilities and side-issues that is belittling to the Republican party and its standard bearers. We have ideal candidates in Theodore Roosevelt and Charles W. Fairbanks, and the performance of the Republican party since it last came into power makes a bright page in American history. It is something to be proud of, something for Republicans to rest their case on. On that they can confidently appeal to the judgment of the American people. Why obscure it and the admirable personality of the candidates who are pledged to project this splendid record of achievement into the future by incessant chatter concerning the age of the vain old millionaire, who has been placed on the ticket with the real Democratic candidate for President? The made-to-order alarm about the age of Davis is mostly humbug and is becoming a bore.

The Atlanta Constitution is very severe in its condemnation of lawlessness and violence in Colorado. It would be invidious to comment on negro burning in Georgia.

## A Notable Electoral Ticket.

The California Republican Electoral ticket has been admirably constructed. The nominees are representative men of prominence and weight. Moreover they are typical of the progressive spirit of the Pacific Coast, being in the main men identified with large enterprises and business pursuits contributory to the prosperity of the State.

Two of the nominees, William J. Dingee and F. M. Smith, are essentially Oakland men, having extensive property interests here and being identified with the most important financial interests of the county. Both are the type of men who do things, whose alert minds and active temperaments are always stimulating and urging communities. While Mr. Dingee is at present a resident of San Francisco he was for twenty years one of the most progressive business men of Oakland. His activities are many. His energetic enterprise has been directed to slate quarrying, cement-making, salt-making and a number of other industries which add to the State's material wealth and prosperity. Mr. Dingee's well-known public spirit caused him to be appointed Park Commissioner of San Francisco, a position for which he is peculiarly fitted by taste and temperament. His interest in floriculture and landscape gardening has all the ardor of a passion. He is already planning a number of improvements to the park system of San Francisco which will be attractive features to the public and will add to the fame and beauty of the city. It is noteworthy that Mr. Dingee has always insisted on paying the highest rates of wages and is a liberal giver to all charities and meritorious projects.

F. M. Smith is another conspicuous example of the successful business man. He, too, is an originator of large enterprises, a man of broad views and public spirit. He is heavily interested in borax-making, street railways and other important enterprises. He is a builder, a pioneer in new lines of industry. He is liberal in his benefactions, and is noted for the many avenues through which his philanthropy and public spirit find vent.

Colonel W. S. Wood of San Francisco is not, like Mr. Dingee and Mr. Smith, closely identified with the Alameda public, but he is, nevertheless, well fitted to bear his associates company on the Electoral ticket. He belongs to the best class of professional men. A lawyer of renown, his success at the bar is the reward of ability, fidelity and the devotion to elevated principles of jurisprudence which distinguish the really great lawyer from the merely successful practitioner. Colonel Wood is veteran in party service, yet a man who has never claimed the honors of office. His eminence in his profession has not been advanced by political activity, nor has it been used to further political aspiration.

The other nominees for Electors are worthy, capable men, whose merits will be reviewed in detail at some future time, but the three who have been particularized illustrate the quality and character of a ticket on which the Republicans of California can pride themselves.

Candidate Davis says the per capita cost of government has increased from \$5.10 under Cleveland to \$7.10 under Roosevelt. He omits, however, to mention the trifling fact that it is a good deal easier to make the \$7.10 now than it was to make \$5.10 under Cleveland. He also ignores the vast difference in the quality of the goods. The Cleveland administration was dear at any price.

## Precept and Practice.

"Why don't the newspapers have more to say about the benefits of home trading?" asked a well known business man of a member of THE TRIBUNE staff. Even as he spoke, a newsboy came along and the merchant bought a San Francisco paper in preference to any of the local journals.

"Perhaps you can find the answer in the paper you have just bought," was the response of the scribe.

The incident is typical. It illustrates the kind of wisdom which prompts some Oakland business men to pay a San Francisco paper twice as much for an advertisement printed in a page that is circulated exclusively in Alameda County as they are willing to pay an Oakland paper for printing the same advertisement. Yet these same business men exhort the local papers to whoop up the gospel of home trading.

Notwithstanding their handicaps, the Oakland papers can well stand comparison with their San Francisco contemporaries. They would present a still more creditable and inviting appearance but for the prevalence of the spirit exhibited by the business man aforesaid, who bought a copy of a San Francisco journal while in the act of urging the local press to tout more loudly the benefits of home trading.

## San Francisco Ideas of Graft.

The peculiar conditions prevailing in the municipal administration of San Francisco are brought under close scrutiny by the fight the Cigarmakers' Union is making to have John A. Drinkhouse removed from the Police Commission. Mr. Drinkhouse was appointed by Mayor Schmitz at the instigation of Abraham Ruef, who has selected a large majority of the Mayor's appointees. Ruef was Drinkhouse's attorney when the latter was Public Administrator.

Mr. Drinkhouse is not a member of any labor union, nor is he affiliated with the Union Labor party, although holding office under a nominal Union Labor administration. He is a manufacturer and dealer in cigars. He is charged with selling non-union cigars and using his power as a member of the Police Commission to compel saloon keepers to buy cigars from him. It is asserted that he is selling non-union cigars under a union label, and is in various ways engaged in undermining union labor. The Labor Council has taken up the fight of the cigarmakers against Drinkhouse and is making his removal a direct issue with the Mayor and his political father confessor.

If Drinkhouse does sell non-union cigars under a union label he is playing a shabby trick on the trade and a still shabbier trick on the Union Labor party by the virtue of whose votes he holds office. But however contemptible from a moral point of view his acts in this respect may be, they constitute no legal justification for removal from office. His business methods may be contemptible, disreputable even, but they do not constitute official misconduct or such personal misbehavior as to warrant his summary ousting from office.

The charge that he is using his official power to force saloon keepers to purchase his goods against their will is another matter. Its significance will be fully understood when it is known that all liquor licenses in San Francisco are issued by the Police Commission, which possesses full power under the charter to revoke licenses at will. If Drinkhouse is using his official authority in the manner charged he is clearly unfit for the position he holds and should be removed without delay. The charge may be true, but difficult to prove in the ordinary way, for a power such as the San Francisco Police Commission possesses may be exerted with telling effect without having its ultimate wishes and purposes stated specifically by those in actual authority. Besides, what saloon keeper is going to testify against a member of the Police Commission? A liquor man who testified against another Police Commissioner who used drastic means to advance his insurance business was promptly deprived of his license. The example has had its effect. The saloon men consider it safer to buy Drinkhouse's cigars than to refuse, and so the Drinkhouse business expands and flourishes.

It is a nice game. The peculiarity of the situation, however, lies in the fact that it is the appointee of a Union Labor Mayor who is violating labor union rules, and that the labor unions should consider this a valid cause for removal from office. It is to be observed that the charge of prostituting official powers is made secondary and subordinate to the charge of dealing in non-union cigars. The inference is that if Drinkhouse had used his power as a Police Commissioner to force the sale of union made cigars, his acts would be regarded as entirely proper. His offense in the eyes of his accusers clearly consists in his forcing the sale of non-union goods. It is not a question of morals or official decency at all, but merely a question of who gets the gaff. When this idea prevails need there be any wonder at the deplorable conditions which exist today in the government of San Francisco?

It is not correct to call Jack Munroe a faker. He is a duffer.

David H. Cannon was practically forced to resign from the Republican ticket in Utah because he is living in polygamy. He is not the kind of a son-of-a-gun the Republican party wants. Theodore Roosevelt is opposed to race suicide, but his opposition does not go to the extent of endorsing the keeping of harems.

The boy that swallowed the Parker button probably found it easier to swallow than the Democratic platform.

Thomas E. Watson claims that he will get 2,000,000 votes. He does not expect to be elected, but says he will get enough votes to defeat Parker. We are under the impression that Theodore Roosevelt will get so many votes that it will matter little how the remainder are divided up between Parker and Watson.

## Naming the Scenic Highway.

By what name shall the new scenic highway that is to be constructed along the highlands from Oakland to Hayward be called? Many think it should have a distinctive appellation indicative of both character and locality. It is to be the noblest thoroughfare in the county, connecting Oakland with the principal towns of the interior. In fact, it is to be a splendid shaded suburban boulevard, twelve miles in length, commanding throughout its entire length one of the most charming panoramic views to be found anywhere. It will, when completed, be the finest suburban driveway in the State, and will doubtless become a favorite road with autoists and owners of fast team, who will here enjoy exceptional facilities for speeding; coupled with scenic attractions of a captivating order. Now what name shall we give this beautiful highway? A suitable designation is required for an improvement that is to be the county's pride, for there's much in a name notwithstanding Shakespeare's remark that "a rose by another name would smell as sweet." The highway should be appropriately named.

## Hints for the Ladies.

Children's sweaters fasten up the back.

Dust coats have become quite an elegance.

The fashionable hair net ties on with ribbon bows.

Dainty lace is often a part of the pretty handkerchief.

Flowered ribbons rival plain ones in popular favor.

Very light weight broadcloths are promised for the fall.

Some sash ends stream out to the very hem of the skirt.

Inch-wide ribbons are used in place of the usual shoe lace.

Big straw buttons form the only trimming on some frocks.

Stiff linen collars and small cravats are worn with morning gowns.

Shirt-waist suits of silk flannel are part of the athletic girl's wardrobe.

A good deal of glittering gold and silver lace is used on "occasions" gowns.

High-crowned Romney hats with big upstanding plumes are the latest cry.

Valenciennes lace and batiste embroideries are the favorite wash trimmings.

Hats suited to both high and low coiffures are soon to arrive in abundance.

Of exceptional smartness is the latest London raincoat of a glorious bronze hue.

Triple capes appear on the newest raincoats.

A touch of orange is seen on the early fall hats.

Woolen skirt and coat suits are shown as the first of the fall costumes.

Lace medallions are now seen in the ends of sashes, and are used in graduated sizes.

Small standing heart-shaped picture frames in metal are selling for 95 cents each.

For \$1.50 can be had a Japanese cotton crepe kimono in pink, with a flower border. It is full length.

Springed dimities may now be bought for 8 cents a yard and when daintily made are refreshingly pretty.

Among the prettiest belts are those of flowered ribbon shirred back and front and fastened with a handsome buckle.

"Buster Brown" belts are selling for 50 cents and are a part of the fashionable dress of the small boy nowadays.

A pretty ash receiver has for a frame the steering wheel of a boat in wood and the center is of pottery with a small sea view.

Big easy chairs of mahogany or oak with leather upholstering are built for comfort and at the furniture sales now on can be had at moderate prices.

## OAKLAND YOUNG MAN PROUD OF HOME CITY.

I. D. MAGNES SUPERINTENDENT OF ABRAHAMSON BROTHERS' DEPARTMENT STORE JUST RETURNED FROM THE EAST.

### I. D. Magnes Tells of Civic Pride Aroused By Trip for Business and Pleasure to New York.

Superintendent of Abrahamson Brothers' department store, I. D. Magnes, returned from the East today. Mr. Magnes while away was engaged in business and in search of pleasure, and gives the following interesting story of his experience away from home.

"You fellows might give me time to inhale some of our glorious California air before you seek an interview with me," he said to THE TRIBUNE reporter today.

"I have often read in our local papers of people returning from the East and being interviewed. I have laughed and even sneered at their statements that Oakland, California, was the greatest and only spot on earth! I would sit back in my chair and smile and think: 'Well, what a statement. Oakland the grandest spot on earth!'

"Of course, I had a perfect right to laugh for I had never been out of the State. But, how was Oakland to be classed as the only place on earth? This I could not understand.

**NO PLACE LIKE OAKLAND.**  
"I have come to learn differently. I have lost my smile—the cynical smile—and I want you please to say that I am to be put in that class, that nowhere is there a place like glorious young Oakland, the pride of the United States, the Athens of the Pacific.

**SUNSHINE AND FLOWERS.**  
"How many times have I said to Easterners that we have the right to call our State the 'land of sunshine and flowers.' And, do you know, I never got into an argument with a single person. They all seem to know of California, and they nod their heads and say, 'Yes, it must be so.'

**NEW YORK CITY.**  
"My impressions of New York are so many that I would take up all your time in speaking of this great metropolis.

"It was like taking a country boy and placing him in the greatest city of the country. I was bewildered for a day or two, but I soon became an Easterner. The sky-scrapers stand out very prominently all over the city. You soon get accustomed to seeing these immense structures. Building is going on more extensively in New York now than in any other time in its history.

**STORES IN LITTLE CITIES.**

"The stores—and I was very much interested in them—are little cities. Just imagine Marshall Field of Chicago handling 8000 employees! When it comes to the comparison of merchandise and the prices set there, I must say they are on an equal with any store in this country.

**SLICED PEACHES.**

"What struck me being very funny was the paying of forty cents for ten slices of peaches. I never knew that peaches were of the value of four cents a slice. But I was in New York and one has to pay dearly there for eatables. Why, people here do not realize what a God's country they have in this great State. I wish I had more time to go into detail as regards everything I saw. My time is valuable, your space in the paper, I dare say, is valuable also.

**CHANCE FOR YOUNG MEN.**

"Some men have great opportunities in New York. Many inducements are offered them. But here, every young man is given the chance of more advancement. We are a smaller metropolis, but we have practically the same outlet as many of the large cities.

"The climate I would rather not speak of. It is terrible. Only men and women

### EXHIBITOR BLANK RECEIVED.

INFORMATION REQUIRED AT ONCE FROM OWNERS OF FAIR DISPLAYS.

Commissioner Wilber Walker, from Alameda county to the World's Fair at St. Louis, has received from Custodian Pearce at St. Louis, a number of blanks which must be forwarded to merchants, manufacturers, horticulturists, viticulturists and other people of this county, who have exhibits at the fair, to be filled out, giving information on a number of features affecting their display, the manner in which their product is prepared, the number of employees engaged in the production, and a variety of other subjects, all of which must be taken into consideration by the judges in determining whether or not the exhibit is to receive a reward.

These blanks are for the Pure Water Company of Berkeley; The F. J. Lea Company, Oakland; Theodore Gier Company, Oakland; Hart Brothers Company, Hayward; California Fruit Cannery Association, Oakland; Pleasanton Hop Company, Pleasanton; J. M. Doty, Olive Oil, Livermore; California Salt Company, Alvarado; E. A. Wright, Oakland; California Packing Company, Hayward; Alameda Sugar Company, Alvarado; El Dorado Linseed Oil Company, Berkeley.

These blanks, according to instructions, must be returned to St. Louis by September 1, though that would now seem to be a physical impossibility. Blank forms in other exhibitors are expected daily.

Commissioner Walker, knowing the shortness of the time remaining and the urgency of complying with the request from the fair managers, has prepared the following letter, which he has sent to all the exhibitors from this county.

"The Alameda County Commission has just received, this morning, the enclosed blank. We are informed by Mr. Webb N. Pearce, custodian Alameda county exhibit, that these blanks must be filled out and reach St. Louis by September 1st. You will see that the time is very short, and we regret not receiving them long ago, but you will please note at the bottom of the blank the date when you received the same so that the International Jury may understand why the blank was not sooner returned.

"Please answer the questions as carefully and as full as possible, and if you wish to add any comment other than that on the blank you have the freedom of doing so. Please attend to this matter immediately, as you and the commissioners will very much regret losing your proper benefit from the exhibition on account of delay, which of course, has been unavoidable, as Mr. Pearce has informed us that he, at three different times, endeavored to obtain these blanks and only succeeded in doing so the day he sent them to us.

"When you have filled out the blanks please send them promptly to Webb N. Pearce, Custodian Alameda County Exhibit, Agricultural Building, St. Louis, Mo.

"If it is not too much trouble, please drop us a note acknowledging the receipt of the blank so that we may be satisfied that you received it."

### IN HONOR OF V. W. FOSTER.

CHICAGO, August 29.—Memorial services in honor of the late Volney W. Foster have been held in the First Presbyterian Church of Evanston.

Addresses were made by Rev. Newell Dwight Hillis, Rev. Charles J. Little and Rev. H. J. Smith, all of whom had known Mr. Foster intimately. Rev. Mr. Hillis, who had come from Vancouver to fulfill a promise made several months ago when Mr. Foster's death was approaching, was the principal speaker and paid eloquent tribute to the whole character and splendid endowments of his dead friend. He recounted the many notable benefits to the public which had resulted from Mr. Foster's energies and elevated his intellectual qualities.

The following organizations to which Mr. Foster belonged took part in the services: Union League Club, National Business League, Ethical Club, Sheridan Association, Holland Society, Sons of the American Revolution and Evanston Historical Society.

### TO CONSIDER THE RATES ON DRUGS.

NEW YORK, August 29.—A special meeting of the manufacturing and jobbing druggists of this city has been called to consider what action, if any, shall be taken by the trade in this section regarding a complaint against rates on drugs, etc., to Western points.

The complaint in question has been made by a Baltimore firm to the Interstate Commerce Commission which will hold a sitting in Denver, September 10, to hear testimony on the subject.

It is claimed by the petitioning firm that various railroads are exacting unjust and unreasonable rates on drugs, medicines, chemicals, dyestuffs, etc., shipped to Western points. It is charged freight to Colorado and Utah points at rates which exceed those charged by the same roads on the same class of merchandise to Pacific Coast points in violation of Section 4 of the Interstate commerce act.

### BENEFIT TO BE GIVEN FOR PROVIDENCE HOSPITAL.

The members of Young Ladies' Institute No. 15 will give a benefit for the Sisters of Providence Hospital at Dietz Opera House on Tuesday evening, October 4. ## ELOQUENT TRIBUTE TO OAKLAND BY REV. DR. DILLE.

### A City With Fairest Surroundings and Noblest Background in the United States.

Rev. Dr. E. R. Dille last night delivered a stirring address on Civic Pride in part he said:

"We in Oakland can boast as could Paul of Tarsus, the Athens of Asia Minor, that we are citizens of the mean city. I came to Oakland thirty-one years ago, and while she had not then outgrown her village proportions, I thought then as I do now that she had the most splendid natural site, the fairest surroundings, the noblest background of any city in the land. God has given Oakland

setting too good for the city, that is a setting worthy of the city that shall be. God has done much for us; it is time that we did something for ourselves.

#### DEVOTION OF GREEKS.

"You know of old the Greeks looked upon their city as their State; within its walls was their fatherland. To it they gave the full measure of their devotion. The classic examples of patriotism and heroism were displayed for cities no larger than Oakland. In a sense we have outgrown

#### PATRIOTIC PRIDE.

"There is no nobler form of patriotism than civic pride. We owe much to our city; let us love it, be proud of it, defend it. For here we live in homes in peace, here we worship the God of our fathers, here rises the roof tree; here our sacred dead rest and every holy tie binds us to the city where we have a local habitation and a name.

"I attended a banquet down in Los Angeles a little while ago—a banquet given by the ancient and honorable order of Boosters (not Boosters) the Los Angeles Chamber of Commerce. When they crow pretty loudly down there, but like the fellow's game chicken they have spurs to back up their crow."

"There is much we might learn from our modest neighbor, Westlake Park, for example is a beautiful walled park, a show place, the pride of Los Angeles, manufactured in the and messes at a cost of a million and a half dollars.

#### BEAUTIFUL WATER PARK.

"But we have a far more beautiful water park in the heart of our city—the bed of the lake scooped out and the pond built by the hand of God—a lake fair in its pool dream, a great turquoise in an emerald setting—and what have we done with it?"

"It is a slough, a stagnant pond, reared with mud flats, and upon its sluggish waters float dead cats and dogs. It ought to be and if the bonds pass, will be surrounded by a great boulevard which will be to Oakland what the Riverside drive is to New York and the Chiaia to Naples and it ought to be surrounded on its terraced slopes by beautiful villas and spreading parks and velvet lawns."

"Until recently a Telegraph avenue was paved like a certain place that is nearer San Francisco than Oakland, with good intentions, and in winter San Pablo avenue and some of our other main thoroughfares are a sea of mud where all our thoughts are drowned. President Roosevelt rode up San Joaquin Hill, but was not rough ride enough to brave the terrains of some of our thoroughfares. And then there is our city hall—dog kennel with a tower upon it!"

#### HIGHER LIFE.

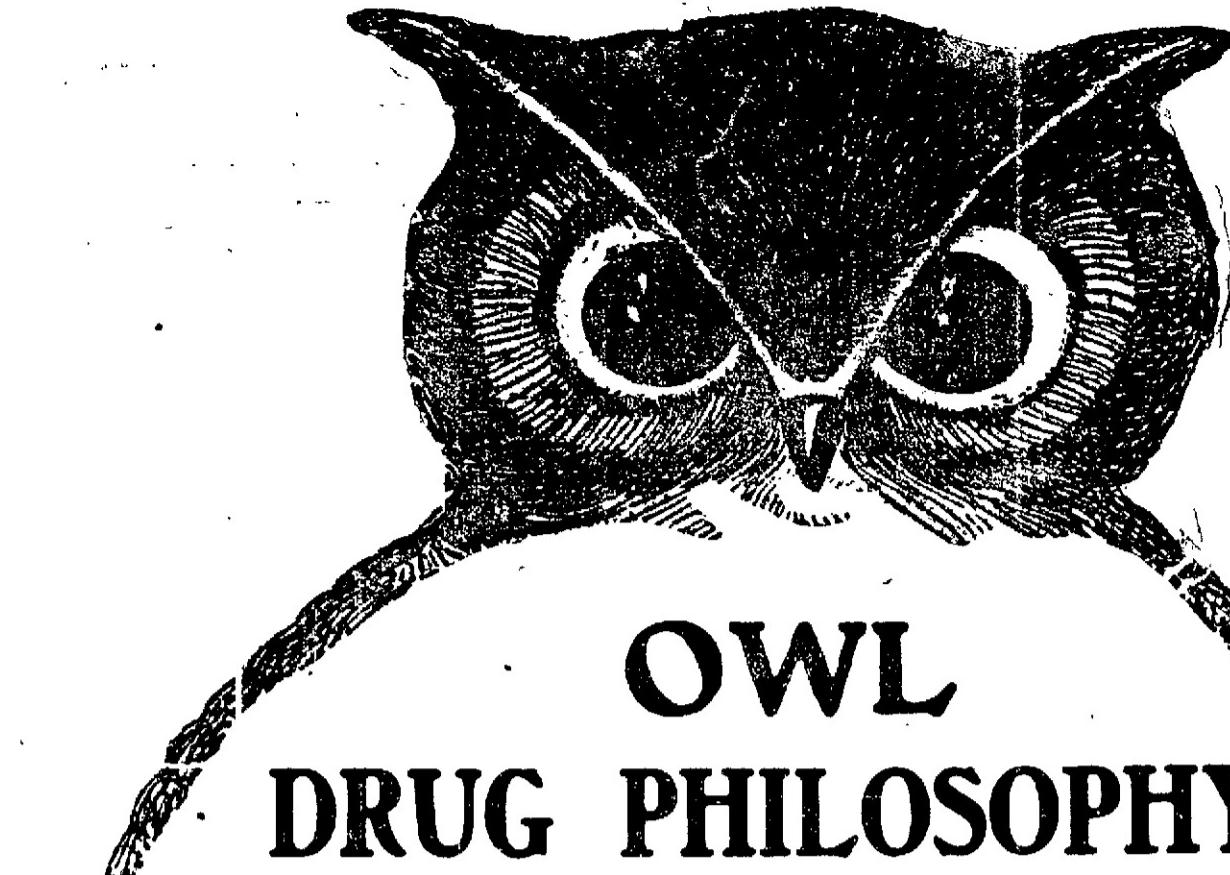

"But I plead most of all for those things that build up the higher life of our city. A city is composed of individuals and like an individual it must have harmonious mental, moral and physical development. If the child's body grows and its mental development is arrested, it becomes an idiot; if its mind and body grow and its moral development is arrested it becomes a criminal—a degenerate."

"The material growth of a city demands a correspondingly increasing intelligence and a correspondingly strengthened public conscience. We need to build up a public conscience, keep up the material growth of our city and more church and religious institutions to keep its moral life abreast with its material and intellectual life."

"The trouble with cities today—with New York and Philadelphia and St. Louis and San Francisco and Oakland—is that moral forces do not keep pace with evil forces. We need better sanitation for our city, but how about its moral sanitation when the number of saloons increases more rapidly than the city does? We are trying to emulate Los Angeles in our civic spirit, but Los Angeles is a commercial and cosmopolitan city, and not a city of homes with a homogeneous population like ours, and with 50,000 men visiting the city overwinter, than Oakland and banishes them altogether from the residence districts."

#### PROHIBIT PITFALLS.

"Says Davis State Jordan: 'The city of the future will not permit the existence of gambling houses and dives; it will prohibit them

## TO BEGIN WORK ON MINES.

### THE AMERICAN MAGNESITE COMPANY PUSHING OPERATIONS IN LIVERMORE MOUNTAINS.

As it will prohibit open cesspools and other nuisances for moral sanitation is as much a duty of the city government as physical sanitation.

"Jesus went over Jerusalem not because of the condition of its streets or its water supply or of its public buildings; He went over it not because of its lack of schools and hospitals and boulders—these parts are fine."

"Jesus went because they rejected Him; because they were casting off that religion that alone could bring them peace and were proposing to secularize their whole lives."

#### FATE OF BABEL.

"Babel, the mystic city of sin, was built upward from the earth in a blasphemous attempt to conquer the heavens. It ended in failure as every system and civilization that leaves God out fails."

"The Holy City, the jewel in the crown of the temple, tumbled down from God of heaven. That means that the coming city must be built after the pattern showed unto John when he saw the New Jerusalem descending out of the heaven of the future in a glorious shape as the brightness of God with men."

"The coming city must bravely exclude that which defiles and works abomination whether it be in the streets or in the newspaper offices or on the book stands or on the walls of the houses in its warehouses. Its manufacturers, its stores, its art galleries, its advertisements."

#### THE IDEAL CITY.

"That sounds very visionary. But consider San Francisco—an ideal city so different to San Francisco—we need only vasting more of the static power that makes San Francisco a most infinitely better than was Pompeii. Already we have cities which have aught of Christ to feed our souls and our bodies. We are rapidly into the oil of cities. Very far off, but still in the same direction we see a city so completely filled with Christ that nothing that defiles shall enter it."

#### TEA.

"Good tea is a great good; bad tea is a great bad. You can make the good as bad as the bad by cooking it wrong."

In every package of Schilling's Best Tea is a booklet: How To Make Good Tea.

## YOUNG MAN FOULY MURDERED.

ORION, Mich., August 29.—Murder and a dastardly attempt to concealment in the theory of the local police in the case of Maynard Blizby, whose mutilated body was found on the Michigan Central Railroad tracks near Orion early today.

Blizby, who was 19 years of age, lived with his parents in this city. He was with friends when last seen. He left them shortly after midnight suddenly running away, his clothes torn and saying that he was going home.

The watch was not found in the clothing on the dead body and the fact, coupled with the finding of a blood-stained stone in the vicinity furnishes the evidence of foul play upon which the police are working. A post mortem will precede the inquest which will be held early today.

Blizby was a young man of good habits.

## FOOTBALL SEASON OPENED.

UNIVERSITY OF CALIFORNIA MEN  
OUT FOR SEASON'S  
WORK.

**Football season was auspiciously opened at the University of California this afternoon when the gridiron men were lined up for the first time for light practice. A large crowd of enthusiastic collegians, both men and co-eds, appeared on the bleachers to take part in the first rally of the term. Under the direction of Coach James Hopper, the candidates for football honor were put through several stunts, consisting of punting, falling on the ball and sprinting around the field.**

Features of the rally were addresses by prominent members of the student body, faculty, coaches and trainers. During the afternoon candidates for the office of yell-leader will be nominated; the election to take place next Wednesday.

This year bleacher rallies, the rally committee has decided to make a permanent feature of the football season. There will be one held every week, probably on Wednesday afternoon, when the band and faculty members will turn out to add to the enthusiasm. The committee in charge has made every arrangement, as well as every succeeding rally, a great success, and to surpass those that in the past have done so much toward winning California's victories.

**BERKELEY'S TAXES TO REMAIN AS USUAL**

BOARD OF SCHOOL DIRECTORS AND LIBRARY TRUSTEES SEEK INCREASES THIS YEAR.

BERKELEY, August 29.—To conform with the law, the Town Board of Trustees, which will have another week's work as equalizers, will set the tax rate for the year on September 1. It has been practically decided to leave the rate at \$1, as it was last year. This includes the sum of 25c levied for the charter and 25c for the fund.

As was the case when the rate was set last year, the Board of Education will make a strenuous fight to have the appointment for the schools set at 30c instead of 25c. The schools have been operated under the reduction during the past year until there is now a large deficit facing the educators.

According to officials who are best informed as to the town's financials, the rapid growth of the municipality has outrun the old charter which holds the taxes down to a basis rate of 75c.

**RETURNS TO YALE AS AN INSTRUCTOR.**

BERKELEY, August 29.—Accompanied by his wife and niece, Miss Flora Winter, Dr. D. White has returned to Yale to resume his duties as Instructor in English and rhetoric.

Miss Winter, a young daughter of J. C. Wilder, a participant of the Coast Division of the Southern Pacific Company, who has been lying at the point of death for several weeks, is now slowly recovering from his illness.

Miss June McGlashan has returned to Berkeley after a visit in Berkeley.

Mrs. John M. Whitworth of 2208 Fulton street has purchased a home at Sierra Madre, where she has moved her household effects.

**SONG AND PRAISE SERVICE.**

BERKELEY, August 29.—A song and praise service was held last night at the Shattuck Avenue Methodist Church. The numbers were rendered by a male quartette, composed of J. Clem Arnold, A. G. Coombs, E. K. Cole and H. E. Harrington, and the following soloists: Miss Clara Norman, J. W. Gwilt and Claude Dukes.

**PROFESSORS FIGHT TO SAVE THEIR HOMES.**

Berkeley Has a Miniature Forest Fire That Jeopardizes Several Handsome Dwellings.

BERKELEY, August 29.—Professor Irving Stringham and Professor E. Perle Lewis, of the University of California, were among the residents in the exclusive eastern foothill residence section, who turned out yesterday to save their homes from destruction from the flames. Miss Anna Ladd, a number of Indians who live in that section also participated in the fire fighting and by a dint of hard work kept the flames from spreading not only to the houses but to a thickly wooded canyon. The fire started while William Smyth was attempting to burn a hornet's nest.

**COMMERCIAL SCHOOL AT THE UNIVERSITY.**

BERKELEY, August 29.—The commercial school department of the University of California Young Men's Christian Association will be opened tonight for the first time.

Stenography and typewriting will be taught Monday, Wednesday, and Friday evenings by the educational director, Miss Mary Palmer. The hours will be from 7 to 10. Bookkeeping and penmanship will be taught on Tuesday, Thursday and Saturday evenings at the same hours. Commercial and civil service stenography will be given if a sufficient number of men.

An employment bureau will be one of the features of the department. The faculty men are being canvassed as to the amount of clerical work they can furnish to students, and it will be the province of the Bureau to find suitable employers who show desire to fulfill this need. Coaching in college studies will be furnished to students upon application.

**HERE TO ATTEND THE CONCLAVE.**

BERKELEY, August 29.—Recorder Jas. Sutton of the University of California announces that 600 students have been admitted to the colleges at Berkeley this

**LARGE AUDIENCE AT THE FIRST CONCERT.**

GREEK THEATER AT STATE UNIVERSITY CROWDED DURING PUBLIC MUSICALE.

Before he was aware of the danger the dry grass and brush caught and swept along with such rapidity that he was compelled to call the assistance of his neighbors.

The flames and smoke made a great display and the fire department was called out. The scene of the fire being but a steep hillside, several blocks from the nearest hydrant, made it impossible to run lines of hose.

After an acre had been burned over the energetic brigade of men and women succeeded in extinguishing the last spark and saving a number of beautiful residences.

The public will be welcome and there will be no charge for admission to these "Half Hours of Music." Last winter the audiences ranged from 300 to 500. It is hoped that there may be no interruption during the program, the lower entrances will be closed at 5 o'clock and latecomers or any persons who wish to leave before the completion of the program will use the upper entrances at the rear of the theater above the highest tier of seats.

**CALIFORNIA PIONEER HAS PASSED AWAY.**

BERKELEY, August 29.—James Grindley, a pioneer of California, and an old resident of Berkeley, died yesterday at his home, 2415 Haste street, after a week's illness.

Leaving his home in Soot and when but sixteen years old, Mr. Grindley traveled around the world as a sailor until forty-two years ago, when he came to the United States and settled in San Francisco, where he learned the trade of engineer.

Thirty-six years ago he married Miss Jessie McKenzie of San Francisco. He was sixty-six years old at the time of his death.

Mr. Grindley leaves a widow, four daughters—Mrs. Charles J. Bryant of Berkeley, Mrs. Lucia M. Tolman of Washington, D. C., Miss Genevieve and Miss Ethel Grindley—and a son, Edward J. Grindley, a member of the University of California rowing crew.

The funeral will take place Tuesday afternoon at 2 o'clock in the family residence. The Rev. W. H. Hopkins will conduct the funeral services. Interment will be at Mountain View

Calvary Cemetery.

CHARLES C. RUGGLES DEAD.

CHICAGO, August 29.—Charles C. Ruggles, vice-president of the Chair Manufacturing Company of the United States, is dead at his home, aged 47 years. Interment will be at Burton, Ohio.

**UNIVERSITY HAS A BUSY WEEK AHEAD.**

Enthusiastic Rally Opens Activities of Which Debating, Receptions and An Election Are Features.

BERKELEY, August 29.—With a football rally on the bleachers, a lively week, which will have debating, music, receptions and meetings as its features, is to open to-day at the University of California. The first football line-up took place at 4 o'clock. To-night the new Y. M. C. A. commercial school opens and Professor J. T. Allen will give an address before the Philological Club at the Faculty clubhouse, on "Secrecy in Voting in the Athenian Law Courts of the Fifth Century." B. C. Professor G. R. Noyes will give an address on "Anglo-Saxon Christian Ethics."

To-morrow night at 11 o'clock Professor Kerძic C. Babcock, president of the University of Arizona, will

give an address before the Y. M. C. A. at Stiles Hall. Tuesday night the Student Congress and Senate Debating Societies will hold debates at North and Stiles Hall.

Wednesday, the Associated Students, by a popular vote, will elect a yell leader.

Thursday afternoon, from 3 to 5 o'clock the Associated Women Students will give a reception in honor of the freshman women.

Friday morning at 11 o'clock there will be a University meeting at Hearst Hall. On this occasion President and Mrs. Wheeler will give their annual reception at Hearst Hall to the members of the entering class.

Next Sunday afternoon, at 5 o'clock, there will be a half-hour of music in the Greek Theater.

**MUSEUM GIFT IS CLASSIFIED.**

BERKELEY, August 29.—When the Berkeley High School Museum was booming two years ago, and the teachers were urging their pupils to bring curios and specimens for collection, there was brought into the schoolroom a small bottle bearing the legend, "Central American Zymophyte," and containing a strange, shapeless, flat, apparently animal mass.

Professor Major will speak tomorrow on "California Livestock Conditions," and Professor Woodworth and Hunter will on "Grazer Plague's" on the same day.

**FORESTERS TO MEET.**

On Tuesday night Court Emeryville Foresters of America, will meet and a large number of candidates will be initiated.

The growth of the organization has been phenomenal. At the last meeting nearly a dozen new members were admitted, and an equal number will probably go in to-morrow night.

Many applications are on file and others are being received daily. The quiet campaign adopted by the Court seems decidedly effective.

**WEDDING BELLS.**

The wedding bells sounded here on Thursday evening last when Miss Alice Brain of this place and David Merrill of Oakland, were made one. The ceremony was performed at the home of the bride's parents on Vallejo street,

Rev. E. M. Hill.

The young couple will reside in Oakland, where the groom is engaged in the carpentering business. The bride is the daughter of Mr. and Mrs. J. Brain, and is held in the highest esteem by all who know her.

**ENTRE NOUS CLUB DANCE.**

The Entre Nous Club of this place will give an invitational dance at Klinker Hall on September 15. The affairs given under the auspices of this organization are always of the most exclusive as well as pleasurable character.

**RESIDENCE NEARLY COMPLETED.**

The beautiful new home of Rev. E. M. Hill, on the corner of Park and Fifty-eighth streets, is nearly ready for occupancy. It is one of the handsomest residences in this locality.

**PERSONALS.**

Miss K. O'Brien of Central avenue has removed to San Francisco, where she will remain for a short time prior to starting for the East, where she will take her future home.

Miss Etta McLane of Fifty-fourth street, returned last week from Fresno, where she has been the guest of relatives for some time.

**PRISON FOR SCORCHERS.**

NEWPORT, R. I., August 29.—Because of the imposition of fines has in no way abated the over-speeding of automobiles, the authorities are believed to have decided to make imprisonment the punishment for all persons convicted a second time of breaking the law.

The first sentence under this decision has fallen upon Michael Woods, chauffeur for Alphonse de Navarro, who has been sent to the county jail for five days.

Complaining witnesses declared Woods was running thirty miles an hour. Finding that the chauffeur had been fined \$15 a week ago for a similar offense the judge at once sentenced him to imprisonment.

**Escaped An Awful Fate.**

Mr. H. Higgins of Melbourne, Fla., writes: "My doctors told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery medicine induced me to take it on." Results were startling and all the larger steamships remained in port.

Vast forests of Manchuria rubber trees which may in time affect the rubber market, have been discovered in Brazil, according to a report from H. W. Furness, United States Consul at Bahia. The area covered by the trees is said to be very large but cannot be defined as the region has not been fully explored. As the investigation proceeds there comes from time to time notice of other sections where like trees grow in profusion.—Washington Telegram to the Chicago Record-Herald.

# REFUSE TO ENTER COMPETITION.

SAN FRANCISCO ARCHITECTS SAY SCHOOL BOARD PERMITS OF INJUSTICE.

Editor OAKLAND TRIBUNE I wish to state briefly the position of the Board of Education of Oakland in the matter of school plans.

The San Francisco Chapter of Architects has advised all architects not to enter the competition for new school houses for the City of Oakland, chiefly for the following reasons:

First—Because the Board declined the aid and advice of said Chapter in formulating a program for competition.

Second—Because the Board refused to offer more than one premium for plans for each school house.

Third—Because the Board refused to bind itself to employ the author of the successful plan as the architect of the building and the supervisor of its construction.

Fourth—Because the Board leaves it open to with architects to submit plans anonymously, if not.

Fifth—Because the Board will not agree to accept the advice of professional architectural experts in judging the merits and demerits of plans and designs.

Sixth—Because the Board is unwilling to exclude from competition all but certified architects.

Seventh—Because the Board reserves the right to use the accepted plan, after payment of a premium therefor, whether or not the author of such plan is employed to superintend the construction of individual buildings.

Eighth—Because the Board refuses to accept the advice of said Chapter in the judgment of said Chapter, "is calculated for all points of favoritism and injustice."

I believe that the Board is actuated by honest motives in this matter and is determined to retain sufficient legislative power to protect itself and the people.

The Board will not act hastily and will proceed at the proper time, such advice as it may then deem advisable. It cannot safely or legally adopt a hasty and ill-considered plan. That is the line which it has arranged. The Board refused to enter into a contract to employ the author of the accepted plan prospective of his fitness to superintend the building.

Its attitude is best stated in the following paragraph of instruction to architects made a part of the notice calling for plans:

## DIVIDENDS WILL BE VERY SMALL.

NEW YORK, August 29.—On the basis of declarations already made and those yet to come September promises, according to the Journal of Commerce, to make an unusually poor showing in the matter of industrial dividends. The amount will be the smallest for four years in years, aggregating only \$9,400,771. This compares with \$14,622,405 in August, 1903, when it actually was the smallest amount disbursed in any one month since the opening of the year. This year's September total compares with \$17,278,403 in 1903 and \$16,918,007 in 1902. Part of the falling off shown in the comparisons is due to the discontinuance of one industrial payment amounting to \$5,000,000 which figured in the returns of September last year.

CHEMICAL WORKERS TO MEET.

NEW YORK, August 29.—Plans have been completed for the annual convention of the Society of Chemical Industry to be held here September 7-12. It will be the first convention of the society held in America. At the conclusion of the convention the foreign delegations will visit the Middle West and South. All the largest manufacturing plants will be inspected. Many important subjects are expected to come before the meeting.

Informed as to the educational needs of the children as he is. His acknowledged ability and fitness for the mission are the result of long experience and careful study in school matters. His work will make unnecessary the hiring of architectural experts, to pass upon plans submitted and in giving of premiums, even if legal, for plans not adopted.

One member of the Board is the civil engineer and architect of the Southern Pacific Railroad Company.

I believe much money will thus be saved, and the interests of the people and children thereby better safe guarded.

## ALBERT I. ELKUS PROMISING CALIFORNIA COMPOSER.

**Tribute By High Musical Authority Paid to Young Artist Who is Achieving Fame.**

Away from Chicago comes word of the most promising young California composer, Albert I. Elkus, whose home is in Sacramento, but who because he is a student at the University of California has spent much time in this city, appearing where he has frequently been heard in concert. Mr. Elkus is a nephew of the Misses Reid, composers the well-known dry goods firm of Kauf Brothers of this city. The following article clipping from the Musical Leader and the Concert Guide, and reproduced in the musical review of San Francisco, of which Alfred Metzger is editor, is a pleasant appreciation of young Elkus:

### COMING RALLIES AT FIRST PRESBYTERIAN.

Invitations are being issued by the First Presbyterian Church for the rallies to be held on Sunday, September 4th, when all the organizations of the church will rally every member for a meeting. The plans include the church, Sunday School and its missions, Christian Endeavor societies and Chinese Sunday School.

Special programs will be presented at each of these rallies. At the evening church service the Rev. M. A. Matthews of Seattle, a brilliant preacher of the Northwest, will give a special discourse on marriage, while before him at that time his wedding tour, as a guest of Will Lyman.

Robert Lloyd, the new leader of the choir, has found favor with the congregation, judging by the many contributions extended the music committee on his selection.

Dr. E. E. Baker, the pastor, last evening began a series of sermons. The first was "The Model Husband," the second, "The Model Wife." The third, "The Model Children," and the last, "The Model Home."

### SPIRITUALISTS TO CONVENE.

The eighth annual convention of the California Spiritualists' Association will be held in Foster's Hall on September 2d and 3d. Business sessions will occupy much of the time on the first two days. A banquet will be served by the colored societies of Oakland on Friday night, and will be followed by a general entertainment on Saturday.

He entertained me with a number of compositions which show that he is a master of the key to that which enables him to give expression to some of the boldest musical flights of his own composition, in which he is talented to such a degree that it is not unusual to expect him to rank among the greatest in America in some future time.
